Subject: Axis J9 Phase 3 Howes Lane, Bicester FAO Sarah Avery

Dear Ms Avery

As a householder in Middleton Stoney I write to protest the next phase of work at Howes Lane, Bicester.

Our property was flooded in Dec 2020 necessitating our living in alternate temporary accommodation for almost a year. I have no doubt at all that excessive and continual building over the local natural landscape is preventing water draining away as it should into the ground and resulting in flash flooding in surrounding areas.

Since we moved to Middleton Stoney 4 years ago there seems to have been endless planning refused and then granted on appeal (including the monstrous Great Wolf resort) - presumably subject to the lure of the mighty dollar and decisions to approve taken by people far away from the homes and lives of the people so catastrophically affected by noise, excess traffic, vibration damage, air pollution and ongoing risk of flooding.

I am adding my voice to the appeal against the Phase 3 development works at Howes Lane, Bicester.

Regards

Marion Moore
