Annex A National Highway's assessment of the proposed development

National Highways has been appointed by the Secretary of State for Transport as a strategic highway company under the provisions of the Infrastructure Act 2015 and is the highway authority, traffic authority and street authority for the Strategic Road Network (SRN). The SRN is a critical national asset and as such we work to ensure that it operates and is managed in the public interest, both in respect of current activities and needs as well as in providing effective stewardship of its long-term operation and integrity.

National Highways has no objection to the planning application subject to the below proposed planning conditions to mitigate any impact of the development proposal on the SRN:

- 1. No development shall take place until details of a Construction Environment Management Plan have been submitted to and approved in writing by the Local Planning Authority (in consultation with National Highways).*
- 2. No development shall take place until details of a Travel Plan have been submitted to and approved in writing by the Local Planning Authority (in consultation with National Highways).*

Reason: To ensure that the M40, A34 and A43 continue to be an effective part of the national system of routes for through traffic in accordance with section 10 of the Highways Act 1980 and to satisfy the reasonable requirements of road safety.
