<b>Comments</b>	<input type="text" value="We are long standing residents of Fringford and have objected to previous applications for the site. The copse provides a very valuable softening and screening effect, which helps to preserve the rural feel of Rectory Lane. This lane is a much used walk within the village and the preservation of the copse would benefit the village as a whole. In fact reinforcement of the copse would actually be beneficial and was an original planning condition I understand. Previous applications for a 3 or 4 bedroomed house for this site have been rejected and other than the archeology report I am not aware of any changes. We hope that this application will be rejected again. Simon and Christine Garrett"/>
