Comments	<input type="text" value="The original permission for this development for the four dwellings on Farriers Close included the condition that this land was planted, fenced off and at all times thereafter maintained as a woodland area and public open space. Why has this changed? There are already issues with parking and traffic in this area, and there are no pavements. Pedestrians are already at risk and adding this extra house will make things worse. The trees on this land block out the less traditional houses behind. These are mature trees and very helpful for wildlife."/>
