

- Site Boundary
- Existing Vegetation to be Retained and Enhanced Where Appropriate
- Proposed Tree Planting
- Proposed Hedgerow
- Proposed Species Rich Wildflower Meadow
- Proposed Amenity Grass
- Indicative Location of Wildlife Pond
- Note: Location of proposed SUDs features to be confirmed at the detailed stage.*
- Indicative Location of Play Area

Proposed avenue of trees creates a soft boundary between the proposed meadow area and the amenity space.

Amenity space incorporates a play area for the local community.

Sustainable Urban Drainage (SUDs) features to be shown at the detailed stage.

Proposed tree planting within meadow area filters views of the scheme from the west.

Proposed pedestrian and cycle access to Ploughley Road.

Proposed Pedestrian and cycle link to Ambrosden.

Veteran tree on the northern boundary is retained as part of the scheme.

Existing boundary vegetation is retained to maintain level of visual screening and retain typical landscape features in the context of the site.

Proposed roads are tree lined in line with NPPF.

Tree planting among proposed built form breaks up roofscape in views from the west.

Pedestrian link is created to the east.
