YOUR COMMENTS ON THE CASE

I object because the proposed development would"
be contrary to the Cherwell Local Plan (and Draft Local Plan) and related spatial planning policy;
result in the coalescence of the Banbury urban area and Hanwell village, contrary to adopted planning policies;
harm an area of high landscape value;
have a negative impact on setting of the conservation area and heritage assets;
Cherwell District Council has approved a new housing land supply statement, which demonstrates that the district has a 5.4 year housing supply for 2022 - 2027, so this development is not needed;
develop a site that CDC has assessed as clearly "not suitable" for development;
erode an important gap of undeveloped land, that is protected under existing planning policy;
result in piecemeal housing development in the open countryside, outside the built-up area of Banbury;
cause loss of an important, prominent landscape feature that adds to the character and identity of open countryside north of Banbury;
have adverse impacts on the environment & biodiversity;
cause loss of high-grade- (Grade 2 and 3a) farmland crucial for sustainable farming and food security;
cause traffic congestion, access and safety problems;
result in loss of amenities such as green spaces;
result in the loss of important public views;
put strain on existing local infrastructure; and
have a detrimental cumulative impact alongside other nearby developments.
