YOUR COMMENTS ON THE CASE

I wish to object strongly to the development of these houses between Banbury and Hanwell Village.

It will make utterly negative impact on people's wellbeing, mental and physical health depriving them more and more of green space.

Spending time in nature is part of what makes the United Kingdom such a special place.

This development plan goes against Environmental Improvement Plan 2023 and its commitment

- that everyone should live within 15 minutes walk of a green or blue space

- to restore nature, improve the quality of our environment

- to achieve clean air

as well as goals

- to Enhanced beauty, heritage, and engagement with the natural environment

- Thriving plants and wildlife

Also there is no infrastructure for Banbury to keep growing. Roads are jammed, air is polluted, there are not enough surgeries, nurseries, schools, parks and outdoor activities. Overcrowded areas deprived from green and recreation space will increase the crime level.

Housing targets should not be achieved on expense of nature and people's wellbeing. Please consider brownfields for future developments.
