1016	Listed Buildings	Two Trees Farmhouse and attached farm buildings. The Farmhouse is a Grade II Listed Building. The Stable Range is located c 20 metres south of the Farmhouse, and is a Grade II Listed Building. The Walled Garden is located c 40 metres south west of the farmhouse and is a Grade II Listed Building. The Barn is located c 10m south east of the farmhouse and is a Grade II Listed Building. The Cart shed is c 50m south of the Farmhouse and is a Grade II Listed Building. The Farm building is c 30m south east of the Farmhouse and is a Grade II Listed Building	NMR 423161, 423165, 423166, 423162, 423164, 423163
1017	Listed Buildings	Manor Farmhouse, Church Walk. Grade II Listed Building The Granary is c30m south east of the Farmhouse and a Grade II Listed Building.	NMR 423071, 423072, 449500
1018	Listed Building	Church of St Mary, Church Walk. Grade II* Listed Building.	NMR 423070
1019	Listed Building	Odd Stones, High Street. Grade II Listed Building.	NMR 423151
1020	Listed Building	15-22 High Street. Grade II Listed Buildings.	NMR 423148
1021	Listed building	Mudginwell Farmhouse. Grade II Listed Building.	NMR 423155
1022	Listed Building	Rose Cottage, High Street. Grade II Listed Building.	NMR 423074
1023	Listed Structure	Bridge c 500m north of Allen's Lock. Grade II Listed Building	NMR 423167
1024	Historic Park	Middleton Park. Grade II Listed Park. 18th-19th century landscape park.	NMR 4063
1025	Cropmarks	Cropmarks of a probable prehistoric enclosed settlement site.	NMR 1076790 SMR 12327
1026	Maze	A medieval turf maze at Troy farm, may be 16th century in date.	NMR 338877 SMR 4313
1027	Earthwork	Iron Age earthwork known as Aves Ditch running in a north-south alignment from Kirtlington to Fritwell. Later utilised as a Roman Road, known as either Wattle Bank, Ash Bank or Margary 161.	NMR 975117 SMR 8925
1028	Cropmarks	A banjo enclosure visible as a cropmark on APs. Internal features including a possible hut circle are also visible.	NMR 1378689 SMR 12166
1029	Cropmarks	A circular enclosure visible as cropmarks on APs. It has a well-defined ditch which broadens either side of the enclosure's west facing entrance. A later prehistoric date seems plausible but anything more precise is speculative on present evidence	NMR 1378696
1030	Railway	The Aynho and Ashendon railway was built in 1910 to bypass Oxford.	NMR 1363571
1031	Archaeological Investigation	An evaluation at the A43:M40-B4031 improvement carried out by Wessex Archaeology in 1993. A Mesolithic lithic implement was recovered near to Ardley.	NMR 1211493

OA Ref. No	Feature Type	Description	Source
1032	Archaeological Investigation	Evaluation carried out on Orchard Road in 1988 by Oxford Archaeological Unit. Eleven trenches were excavated, revealing a late medieval/post-medieval lynchet field boundary.	NMR 454120
1033	Cropmarks	Part of sub rectangular ditched enclosure of uncertain date is visible as a cropmark on APs.	NMR 1378694
1034	Cropmarks	Cropmarks remain of a large sub-circular enclosure comprising an outer pair of concentric ditches and a third inner concentric ditch circuit. There is an entrance gap on the western side. In the southwest of the inner enclosure is a cropmark of a large circular pit 30m in diameter. Immediately outside the inner enclosure is a small, incomplete single ditched curvilinear enclosure 15m in diameter which may represent a hut circle. This feature is not within the study area but is deemed significant to the EIA.	NMR 336910
1035	Earthworks	Earthworks marked on an Ordnance Survey map of 1833, possibly Roman	NMR 338881 SMR 16844
1036	Site of Building	Site of railway station opened in 1910 and closed in 1963.	NMR 502168 SMR 12436
1037	Cropmarks	An Iron Age "banjo enclosure" visible as cropmarks. The site lies immediately outside the fence of Upper Heyford airfield. Measuring c 56 by 68m, it faces east, the ditch defined approach running some 75 metres towards a former watercourse.	NMR 1378602
1038	Cropmarks	A ring ditch 14 m across is visible as a cropmark on APs. It lies among a series of linear and rectilinear cropmarks which appear to represent part of a ditched field system of presumed later prehistoric date and which appears to respect the enclosure	NMR 1378632
1039	Cropmarks	A fragment of an enclosure (or, just possibly a linear feature) is visible as a cropmark on APs. A later prehistoric date is assumed on the basis of the other sites in the vicinity.	NMR 1378612
1040	Cropmarks	A complex of sub rectangular enclosures, probably representing Iron Age and/or Romano British settlement, is visible as cropmarks on APs. The complex is located adjacent to a former watercourse and covers an area circa 230 metres by 100 metres	NMR 1378617
1041	Cropmarks	A large rectangular ditched enclosure is visible as cropmarks on APs. Aligned northwest southeast, the enclosure measures c 140 by 95m and appears to feature right angled corners.	NMR 1378647
1042			
1043	Inhumations	Possible early medieval inhumations, with grave goods including stirrups, found at The Leas.	NMR 338876 SMR 5915
1044	Cropmarks	A probable banjo enclosure visible as a cropmark on APs.	NMR 1378688
1045	Cropmarks	A sub circular enclosure with double ditched approach visible as a cropmark on APs	NMR 1378687
1046	Archaeological Investigation	Excavation at Aves Ditch, The Gorse carried out by Oxford University Archaeological Society in 1997 and 1998. Sectioning of the linear earthwork within The Gorse recovered Iron Age pottery from the bank and a mutilated adult burial from the bottom of the ditch.	NMR 1171850
1047	Road	Roman road extending from Hanwell to Oxford. Port Way.	NMR 974918 SMR 8926
1048	Cropmarks	Cropmarks of a probable prehistoric or Roman rectangular enclosure and linear features.	NMR 1076784, SMR 9410

## Appendix I

OA Ref. No	Feature Type	Description	Source
1049	Building	Post-medieval chapel. Roughly cut stone in uneven courses. Gabled roof now slated.	SMR 536
1050	Archaeological Investigation	Watching Brief at land west of Two Trees Farmhouse, High Street, Upper Heyford. Carried out by John Moore Heritage Services in 1999. A post-medieval ditch and wall were found, thought to be a property boundary.	NMR 1333105, SMR EOX118, 16342
1051	Canal	Construction of the Oxford Canal was authorised in 1769 with the intention to bring coal southwards from the Warwickshire coalfield to Banbury and Oxford; it was also to provide access to the River Thames.	NMR 1340619
1052	Cropmarks	Cropmarks of a pit alignment of uncertain date.	NMR 1076788
1053	Railway Line	The Birmingham and Oxford Junction line opened between Millstream Junction, in Oxford, and Banbury in 1850, and was initially broad gauge. The rest of the line to Birmingham was a double line of mixed gauge and opened in 1852.	NMR 1361054
1054	Cropmarks	Cropmarks of a possible Prehistoric or Roman settlement site consisting of a trackway, enclosures, pits and a possible hut circle.	NMR 1076798 SMR 15970
1055	Scheduled Monument	Somerton Manor House; earthworks and remains of hall. Original house built in the early 16th century. Demolished late 18th/early 19th century. One window remains.	NMR OX152 SMR 5033
1056	Scheduled Monument	Ardley Wood Moated Ringwork. Norman sub-rectangular earthwork enclosure situated c 100m south west of Manor Farm. The monument is believed to be originally a Norman ringwork and later reused as a medieval dry moated settlement site.	NMR 28166 SMR 2526
1057	Scheduled Monument	Upper Heyford Tithe Barn. Early 15th century stone barn, substantially unaltered and in good condition.	NMR 423073, OX93, SMR 3199
1058	Cropmarks	Large rectangular enclosure. Enclosure of c 110x70m with several subdivisions. South boundary of this enclosure appears to intersect a small banjo enclosure.	SMR 12247
1059	Milestone	Post-medieval milestone. Type T6.	SMR 10058
1060	Findspot	Romano British pottery sherds found in 1973 while locating the Agger of a Romano British road whilst surveying in mid north Oxfordshire.	SMR 3072
1061	Earthworks	Earthworks showing a medieval/Post-medieval shrunken village. The earthworks span three adjoining fields. Three aspects (i) outline of large building and two house platforms with hollow way intervening. (ii) Two hollow ways continuing the line of the existing roads. (iii) series of platforms and crofts where one cottage has been removed since the 1950s	SMR 9015
1062	Listed Building	Post-medieval Grade III Listed Building. Former Rectory, built by 1665, and enlarged in 1860.	SMR 2752
1063	Fishponds	Medieval/Post-medieval fishponds. two ponds with intervening causeway or dam shown in 1955. Larger pond to the west called The Fish Pond. Smaller pond to the east called The Horse Pond, now mostly infilled.	SMR 1350
1064	Findspot	Brooch (penannular). Probably 14th century. Found in 1992.	SMR 14375
1065	Building	All Saints Church. Built in 1870 at a cost of £900.	SMR 5093
1066	Findspot	Medieval iron dagger found by metal detectorists. OMS acc no 86.302	SMR 13893
1067	Cropmarks	Cropmarks of a hexagonal enclosure. Identified by R Hingley in 1979.	SMR 12328

## Appendix I

OA Ref. No	Feature Type	Description	Source
1068	Pond	Crowfoot pond seen in the OS photo survey of 1947	SMR 11723
1069	Quarry	Post-medieval quarry, c 130m east of Port Way, seen on the OS photo survey of 1947	SMR 11729
1070	Quarry	Post-medieval quarries, seen on the OS photo survey of 1947.	SMR 11719
1071	Cropmarks	Bronze Age barrow. Single circle cropmark with a spot near the centre. The area is now affected by housing so the barrow is probably destroyed.	SMR 7875
1072	Archaeological Investigation	Watching Brief carried out by Oxford Archaeological Unit in August 1994. Four E-W ditches with Middle Iron Age pot suggested nearby settlement.	SMR 15815
1073	Earthwork	Medieval fishpond across west facing valley.	SMR 5968
1074	Listed Building	Post-medieval canal bridge. Grade II Listed. Elaborate brick bridge spanning river and canal, finished by 1790 when canal opened. Bridge number 203. Foundations of earlier structure may have survived.	SMR 5939
1075	Lock	Canal lock, Allens Lock. Shown on the 1881 OS map.	SMR 215
1076	Bridge	18th century canal bridge over Allens lock. This bridge has no towpath suggesting that a pre-canal structure may have been adapted for canal use in the 1780s.	SMR 5940
1077	Building	Post-medieval Rectory farm, High Street. Three bay, 17th century farmhouse	SMR 10991
1078	Site of Building	Post-medieval rectory, 17th/18th century. A medieval rectory was rebuilt here in 1696, and remained until the present rectory was built in 1865.	SMR 5938
1079	Building	Stone built Wesleyan Chapel with the date 1867 on the altar.	SMR 3276
1080			
1081	Earthworks	Medieval shrunken village. Several platforms and banks in and around the village indicate sites of former farmsteads, especially east of the church.	SMR 5947
1082	Site of Building	Water Mill shown on the 1881 OS map. Pulled down in c 1910.	SMR 216
1083	Cropmarks	Irregular cropmarks on each side of Aves Ditch. Possibly prehistoric but possibly natural.	SMR 11553
1084	Structure	Drystone wall on part of the eastern boundary of accommodation area. Shown as boundary on 1st edition OS map of 1885.	HS/WS
1085	Archaeological Investigation	A series of evaluations carried out by John Samuels Archaeological Consultants in May 1999. The results indicated that there had been considerable ground disturbance over much of the site. There was evidence to suggest the survival of some archaeological remains at the western end of the former airfield.	SMR EOX1763-6
1086	Cropmarks	Series of cropmarks seen on AP RAF/106G/UK/1488 RP 3005 9-May-46. Located to the south of Troy Farm they appear to be a series of boundary ditches.	AP
1087	Cropmarks	Series of cropmarks seen on AP RAF/542/1 F21 34 4-Aug-54. Located to the east of Somerton, they appear to be a series of three sub circular enclosures and a ditch.	AP
