Having reviewed all of the documents posted, I am writing to express my concerns over a lack of full consultation and notification on elements of the development which have a direct impact on existing Bunkers Hill residents - specifically with respect to changes in the future condition and use of land adjacent to the development collectively owned by Bunkers Hill residents, plus proposed changes to community-owned water supply and sewerage treatment facilities which have not been clearly articulated to residents, leaving them unable to determine if the changes are in their best interests or not. It would be much appreciated if the developer could share with existing residents, in advance, concrete proposals with respect to the above, as this would improve public relations and ensure harmonious addition of the new houses to the existing community.
