Comments:

Thank you for consulting us on the above application, having now reviewed the documentation contained on DEF we have the following comments:

This proposal does not appear to require any diversion to the Bloxham public footpath numbered 136/5. We note that that public right of way is being retained on its current legal alignment through a public open space and this is welcomed. We would, however, ask that due to the location of the public right of way the applicant is reminded that during any development works the public footpath must not be impacted on and will need to remain clear and accessible at all times. No temporary obstructions including any materials, plant, temporary structures or excavations of any kind should be deposited / undertaken on or adjacent to the Public Right of Way that may obstruct or dissuade the public from using the public right of way whilst the development takes place. Reason: To ensure the public right of way remains available and convenient for public use.

Kind regards
Legal Services (PRoW)

Case Officer:
Samantha Taylor
