Subject: Proposed new development on the South Newington Road, Bloxham

I object to the proposed development in Bloxham for the following reasons:-

- * The proposed development is outside the Bloxham building line and is contrary to The Neighbourhood Plan.
- * Road safety and weight of traffic on the A361 - already recognised as a dangerous road. Entry/exit to the proposed development will potentially cause a very real hazard.
- * The mini roundabout at the junction of South Newington Road and Barford Road is already a 'black spot' - with drivers being unsure who is giving way due to small size of the roundabout. More traffic/more problems. What about a Bloxham by-pass to divert all the HGVs!
- * Village infrastructure will not cope - doctors/dentists. Difficulty in employing new GPs anywhere!
- * The shopping area is always congested with traffic and parked cars.
- * School places are already in short supply - no space for extension.
- * The close proximity to the Slade Nature Reserve.

Thank you for your attention.
