Subject: Bloxham proposed development

Dear Samantha

My husband and I are shocked that there is yet another proposed housing development Bloxham for 95 new houses (Gladman Proposal).

We moved to Bloxham from London to get away from noise and traffic, but over the past 2-3 years the village has become congested and the roads busy and noisy due to 220 new houses being built already.

We have had enough new housing developments and do not need another one. Our primary school is full to capacity and the village is bottlenecked with traffic as it is, plus the main road is dangerous, added to by big lorries coming through the village all the time.

We strongly oppose this new development for our sanity and for the safety of our children.

Kind regards,

Caroline
