Subject: Bloxham Gladman Proposal

Dear Ms Taylor

I am writing to you to object strongly to the potential 95 house Gladman Development being proposed for Bloxham village.

There are many reasons that I can think of to object to this proposal, and I am sure you will have had them sent to you by now already.

Therefore I will just say that the objections the villagers have had to previous proposed plans, which have come to fruition over the last 10-15 years and have resulted in the village having grown by over 50%, have not changed - but have become more urgent and NEED to be recognised.

Our Village is becoming a congested and unsafe place with congested roads, and many HGV's using the A361, resulting in queues through the village from one end to the other most mornings between the morning and evening peak times

The Doctors surgery, schools and preschool's are full to bursting, resulting in local families having to send their children to other villages (often whilst an older sibling is still at the local school).

The site of the proposed development is on the entrance to the village on the A361, which is already a road with many accidents, and a vast amount of heavy traffic, and will surround the recreational field that is well used by children and football clubs. This area is the remaining rural recreation space in the village and is outside the village building line and is completely contrary to our Neighbourhood Plan (Why did we waste A LOT of time and effort developing a plan for it to be ridden rough shod over?)

I feel very strongly that we have more than our fair share of new housing in our village in the last few yers (3 developments in the last 5 years) and it is now time to call a holt to any further major developments such as this Gladman proposal. I urge you to reject this completely speculative proposal by this Land Promoter who has no knowledge or interest in our, or any other village/area other than as a money making project. businesses

Yours sincerely

Melanie Rayner
