Comments	<input type="text" value="As a keen cyclist. I have concerns over the lack of provision for safe cycling access. The current proposed roundabout has the following concerns- 1. provision for pedestrians only in many areas 2. confusing design with multiple junction types 3. no horizontal separation between carriageway and paths 4. no waiting areas meaning that pedestrians and cyclists waiting to cross carriageway will block the paths. 5. no transitions between the shared paths and carriageway I support the proposed alternatives submitted by the Bicester Bicycle User Group (BicesterBUG)"/>
