Comments:

This development appears to be in line with both local but central Government policy.

The addition of an indoor tennis dome will allow Bicester and the wider area's residents more access to play sport year round which will no doubt lead to less strain on local healthcare services.

Having laboratories and other offices built will encourage state of the art business to relocate to Bicester, having massive socioeconomic benefits.

The suggested development is out of the way so will not cause any challenges from an overlooking/view ruined perspective and will create a great deal of jobs.

Please approve.
