1.0 INTRODUCTION

- 1.1 David Tucker Associates (DTA) have been appointed by Mr Alex Watson to prepare a Transport Statement to support an application for two residential dwellings on land to the rear of High Street, Bodicote. The site layout plan is included in **Appendix A**.
- 1.2 An application has been submitted (Reference: 19/02001/F) for two residential dwellings. The Local Highway Authority have raised objection to the proposals and a copy of their comments are included in **Appendix B**. This Statement addresses the concerns raised by the Local Highway Authority.
- 1.3 The site already has consent for access to two residential dwellings which received no objection from the Local Highway Authority.
- 1.4 The report demonstrates that the appropriate visibility splays can be achieved at the access and there are no existing road safety issues. The access width will be improved as a result of the proposals and the overall impact of the development is negligible.
- 1.5 The proposals are in full accordance with paragraphs 108 and 109 of National Planning Policy Framework (NPPF) and there are no sustainable highway reasons for refusal.

2.0 SITE LOCATION AND LOCAL ROAD NETWORK

2.1 Site Location

2.1.1 The site is located to the east of High Street in the village of Bodicote. Bodicote is situated around 3.2km to the south of the centre of Banbury. Access to the site is via an existing private route from High Street. The access is around 3.7m wide.

2.1.2 The site is currently used for the storage of light agricultural vehicles and machinery.

2.2 Local Road Network

2.2.1 High Street runs north to south and forms one of the main routes through the village. The road is around 8m wide within the vicinity of the site and benefits from a footway on both sides of the road. The road is subject to 30mph speed limit and street lighting is present.

2.2.2 Bus B3 is operated by Stagecoach and runs along High Street providing an hourly service between Bodicote and Banbury Monday to Saturday.

2.3 Existing Traffic Flows

2.3.1 An Automatic Traffic Count was undertaken on High Street within the vicinity of the site access for a 7 day period starting Tuesday 11th February 2020. The data is included in **Appendix C** and a summary of 5 day average flows and speeds are provided in **Table 1** below.

Table 1 – ATC Results

Direction	AM Peak	PM Peak	24 hrs	85 th Percentile Speeds	Average Speeds
Northbound	85	60	881	25.6mph	20.3mph
Southbound	82	146	1,308	24.9mph	19.9mph
Total	167	206	2,189	-	-

2.3.2 The results indicate relatively modest traffic flows during peak periods with recorded speeds well below the posted speed limit.

2.4 **Road Safety**

2.4.1 The latest 5 year accident records have been obtained from Oxfordshire County Council. The data is included in **Appendix D**. This shows one slight accident occurred on High Street to the south of the site access and involved a pedal cyclist. No accidents have been reported within the vicinity of the site access.

3.0 DEVELOPMENT AND ACCESS PROPOSALS

- 3.1 The proposals are for two residential dwellings with the removal of the agricultural use of the access. The site layout plan is included at **Appendix A**.
- 3.2 Visibility splays at the access of 2.4m x 29m to the north and 2.4m x 30m to the south can be achieved in accordance with guidance in Manual for Streets 2. The splays are shown on **DTA Drawing 21487-03**.
- 3.3 The access is proposed to be widened within the site to 4.8m with a passing place to allow 2 cars to pass. This is shown on the site layout plan. The narrow section of the access is therefore over a very short stretch and as such vehicles are unlikely to need to reverse onto the highway. Adequate space will be provided within the site as shown on the layout to allow for adequate parking and turning for vehicles.

4.0 OVERALL IMPACT

- 4.1 The site is currently used for the storage and therefore use of agricultural vehicles. The site benefits from planning permission for access to two residential dwellings receiving no objection from the Local Highway Authority (Application Refs: 16/01369/F and 18/01914/F) whilst continuing to provide access for agricultural vehicles and machinery. The previous proposals included the erection of a quadruple garage which was to serve the proposed new dwelling to the rear and an existing neighbouring property.
- 4.2 As part of this application the garaging for the neighbouring property will no longer be provided, therefore bringing the overall total to 3 dwellings (one consented and two proposed) served from the access with the removal of the use of the access for agricultural use.
- 4.3 Therefore, there is only a net increase of 1 dwelling and even without the removal of any agricultural movements, the forecast traffic generation would be around 6 trips per day which cannot be considered to be material.
- 4.4 It should also be noted that the previous consent for two dwellings was granted with no objection from the Local Highway Authority. At the time the access was gated and narrower than the current arrangement. Furthermore, the proposals did not include the widening of the access within the site.

5.0 CONCLUSION

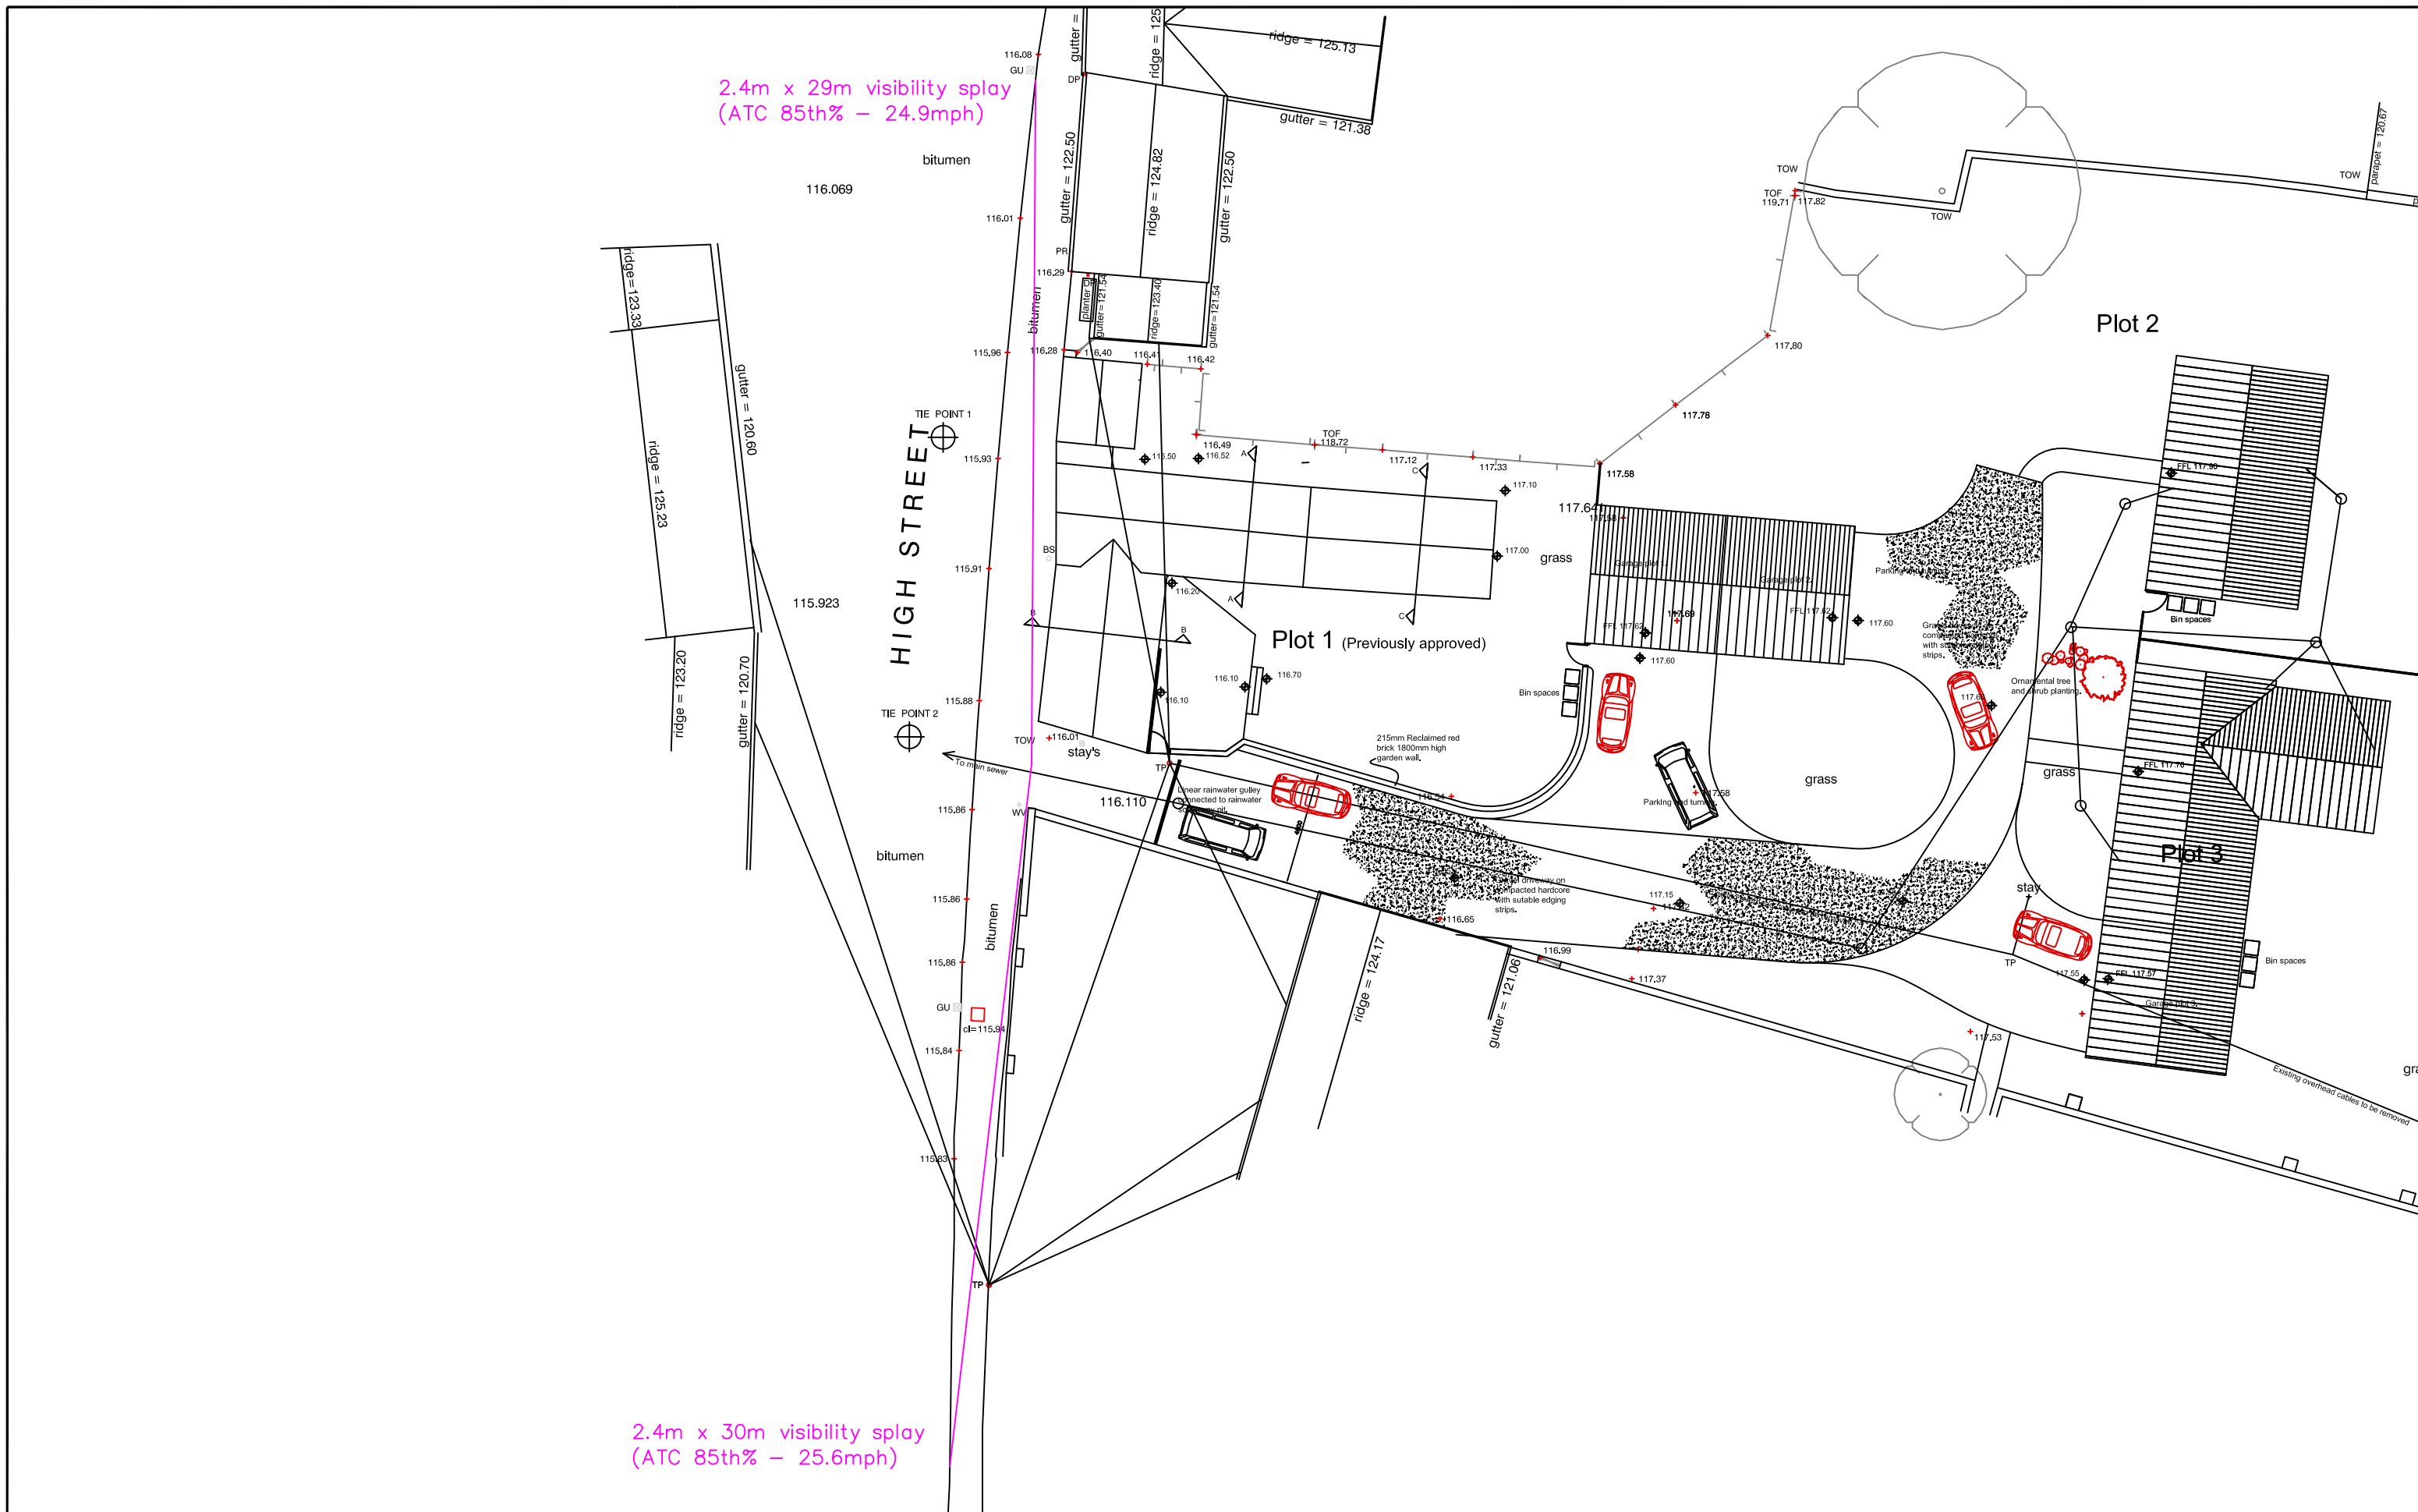

- 5.1 This Transport Statement has been prepared by David Tucker Associates for two residential dwellings on land at The Chaff Place, High Street, Bodicote.
- 5.2 The site is to be accessed via an existing private driveway from High Street. The site is currently used for the storage of light agricultural vehicles and machinery.
- 5.3 The site already has consent for access by two residential dwellings (an existing neighbouring property and one new dwelling). This application received no objection from the Local Highway Authority. Access will not be provided for the neighbouring property as part of this application. This application proposes the erection of two dwellings to the rear. The proposals therefore result in a net increase of 1 dwelling together with the removal of use of the access for agricultural vehicles.
- 5.4 A review of the latest 5-year collision records confirms there is no existing road safety issue at the location of the site.
- 5.5 Adequate visibility can be achieved in both direction from the site access. Improvements to the access road are proposed with a widening of the access within the site to 4.8m.
- 5.6 The proposals are in full accordance with paragraph 109 of the NPPF and there are no sustainable highways reasons for refusal.

Subject: 19/02001/F - The Chaff Place High Street Bodicote

Hi Shona,

I have looked at the applicants Transport Statement and looked again at the site plan and still conclude that the access as proposed for two dwellings is inadequate due to its width, lack of inter-visibility for pedestrians and inadequate visibility envelope without evidence to suggest a reduced envelope would be acceptable at this proposed intensified access.

Due to the limited width of the proposed intensified access, conflict will arise should two vehicles attempt to use the access at the same time. The lack of visibility into the site has the potential of requiring one of the vehicles to reverse either back into the site (to allow an accessing vehicle to leave the network), or the opposite (with an egressing vehicle taking priority) occurring, forcing the accessing vehicle to reverse back out across the footway and into the highway. As a result of this proposed inadequate access, and with little or no pedestrian inter-visibility, this constitutes an unacceptable highway and pedestrian safety risk.

It is also worth highlighting that whilst High Street is within the village of Bodicote, Highstreet is one of the principal routes into and through the village. The A4260 which runs to the east of the village acts as a bypass for the village taking the majority of through traffic past the village rather than through it. Therefore, whilst it doesn't appear that a traffic or speed survey has been conducted, I would be concerned if a vehicle for whatever reason had to abandon an attempt to enter an access and be then forced to reverse back out in the carriageway, a situation that proposal cannot, at present be designed out or controlled via a conditioned to prevent.

Further, Highstreet is on the B3 bus service connecting Banbury town centre to Bodicote via Bankside and Longford Park. This service uses Highstreet, Freemans Road and Molyneux Drive to loop round and then make the return journey back to Banbury. As a result, the direction of travel for this service is south along Highstreet immediately past the site entrance. Additionally, the bus stop for the 'Old Horse and Jockey' is located immediately adjacent to the proposed site access, further highlighting the potential risk to pedestrian safety and no warning of emerging or reversing vehicles from this proposed access. Therefore with no pedestrian inter-visibility and no pedestrian visibility splays, I have no other option but to maintain my previous objection to this proposal.

Finally, the application appears to lack details of what the achievable visibility is for this proposed intensified access in the form of a plan (that is assumed the site access was acceptable). Without a speed survey it is assumed Manual for Street (MfS) 1 and 2 standards are to be applied.

The updated Transport Statement received December 2019 states that acceptable visibility can be achieved from the site. However I dispute that this is possible as this has not been shown in plan form. Were a plan to show a visibility splay that accords with MfS, I believe due to the curvature of Highstreet, this visibility splay passes through objects including dwellings south of the site, consequently a visibility splay that is in accordance with MfS is not achievable. Had the applicant conducted a speed survey, this may then inform a reduced visibility envelope. However this hasn't been demonstrated and as such MfS has been applied in this assessment of the visibility envelope from the site proposed access.

For the reasons set out above, OCC maintain objection on the grounds of the highway.

If you would like to discuss any of the above in more detail, then please do not hesitate to contact me.

Appendix D

- ▲ Fatal (0 accidents)
- Serious (0 accidents)
- Slight (1 accident)

Accidents between dates 01/01/2015 and 31/01/2020 (61) months

Selection: Notes:

Selected using Manual Selection

Thursday 27/10/2016 Time 1208 Slight at HIGH STREET JUST N OF J/W GOOSE LANE BODICOTE

E: 446003 N: 237822 Junction Detail: 3 Control 4

Fine without high winds Road surface Dry

Daylight

Vehicle Reference 1 Car Moving from N to S Going ahead other

Casualty Reference: 1 Age: 72 Female Driver/rider Severity: Slight Injured by vehicle: 1

Vehicle Reference 2 Car Moving from N to Parked

Vehicle Reference 3 Car Moving from N to Parked

Vehicle Reference 4 Pedal Cycle Moving from S to N Going ahead other

Accidents between dates **01/01/2015** and **31/01/2020** (61) months

Selection: **Notes:**

Selected using Manual Selection

Accidents involving:

	Fatal	Serious	Slight	Total
Motor vehicles only (excluding 2-wheels)	0	0	0	0
2-wheeled motor vehicles	0	0	0	0
Pedal cycles	0	0	1	1
Horses & other	0	0	0	0
Total	0	0	1	1

Casualties:

	Fatal	Serious	Slight	Total
Vehicle driver	0	0	1	1
Passenger	0	0	0	0
Motorcycle rider	0	0	0	0
Cyclist	0	0	0	0
Pedestrian	0	0	0	0
Other	0	0	0	0
Total	0	0	1	1

Number of casualties meeting the criteria: 1
