Subject: Planning notification for application reference: 19/02350/OUT

Hi Samantha

Looking at the site there are a number of trees situated within the boundary to the south west of the site and some within the north west boundary. I would like to see a Tree Survey and Arboricultural Impact Assessment submitted as part of the application. An Arboricultural Method Statement will be required for the construction phase to ensure that the trees can be afforded the necessary protection during construction. It would be nice to see proposals to plant some trees as part of the application. I would like see a few large trees included in open space as well as small ornamental trees within the gardens.

Thanks

Ellen
