Comments	<p>I purchased my house 18 months ago and specifically asked if there was any future housing proposed for this site, there was not at that time or I would NOT have purchased my house. Banbury does not need any more new houses we are being swamped as it is and it is having a massive impact on the sale of existing properties. Every corner of Banbury is currently being over-developed. The proposed land currently being used as a farm regularly floods and goodness knows what is in the soil as diesel spillages must happen as well as other hazardous substances. Canal Lane is an unmade road and regularly used by walkers and children accessing the new school at Longford Park as well as Bishop Loveday school, any further development would inevitably endanger lives especially during construction. The roads are already majorly congested and there are already far too many cars in the area causing traffic issues making commuting to work a nightmare. Silverweed and Mayweed roads are NOT constructed for any additional vehicles accessing a proposed new development. The pavements in this vicinity are very narrow and any parent with a pushchair may need to use the road (to pass by another pedestrian) to walk along causing a potential hazard on the already narrow road.</p>
