Comments	<p>As a Ramblers path warden for this Ward, I wish to object strongly against this proposal to build more houses in the one green space remaining between Longford Park and Bodicote. Canal Lane, this once peaceful Bridleway, has been used by walkers for many years, but this development would have a detrimental effect on both the Bridleway and its environment. I note that this is not on CDC Local Plan. Inevitably more concreting over this land will lead to increased flooding on and around Canal Lane. I do have serious concerns about CDC pretending that they care about the environment and wildlife habitats, which once gone they are gone forever! Perhaps Councillors should read and put into practice the aforementioned Local Plan. WE ARE ALL RESPONSIBLE FOR THE WELFARE OF THIS PLANET. It is not here to increase the wealth of greedy and selfish individuals. I would urge you to refuse this application.</p>
