Comments	<input type="text" value="My only objection is the access on to Main Street. This access will cross the pavement used by primary school children walking to school and secondary school children walking to catch the bus. There is no path on the other side of the road. The access will be between houses with limited visibility for those coming out of the drive in a car or the pedestrians crossing the drive. It is a dangerous development that does not consider children's safety or other pedestrians. Cars park on that side of road limiting visibility further. There is access already onto pound lane and access to Main Street is unnecessary."/>
