Comments	<input type="text" value="The proposed plans for Mawles Farm appear to be positive and will restore what is currently a very rundown farmyard. The site is an important one, being at the centre of the village and within the conservation area, and the in-filling of the existing buildings, in a sensitive way, is to be admired. The steel barn, the yard and the dilapidated stone barns are currently a blight on the village and I am looking forward to the site being sympathetically renovated. I like that the owners are proposing no new openings to the barns, instead focusing any openings on the amenity space within the yard. Overall, an exciting development, and one that I support."/>
