Comments	<input type="text" value="I'm writing to express support for the above referenced planning application. I'm very pleased to see that planning approval has been sought for the conversion of the outbuildings so that their future is secured in a sympathetic way. However, it is unfortunate that no consideration has been given to provide access and parking to what is now called Mawles Cottage, formerly the original farmhouse. The Cottage is a possible 6-bedroom house that will generate significant on-street parking on an already congested High Street. Also, the gable end of the new proposed entrance roof, off Main Street, looks like it will be attached to Mawles Cottage just below the top floor bedroom window. Not only could the outlook from Mawles Cottage be affected, which is not part of the proposed development, but also it must be noted that the property will be under separate ownership. A final concern is that should the outbuildings be sold on (with planning approval) is a future developer obliged to adhere to the proposed plans or could they reapply for a more extensive development, eg more houses?"/>
