Comments	<input type="text" value="I live in Caversfield and the traffic already when events being held is terrible, what with the hotel and the building around the site for people to stay in is just to much. The traffic the other end of town is bad enough without the same this end of town. The place is no longer a heritage site it's now on to make as much money for them as possible, turning out the glider is bad enough, just so that the site can become a race track, this will bring the sound of race cars all the time. If this is or was a heritage centre how come the plan to put down a runway this has always been a grass runway and should say as it is. This was listed as the most complete grass airfield that remains in the country are you going to let them destroy this? I guess if you get enough money form them the same will happen this end as has with Bicester village. Don't let this happen. Paul white"/>
