Comments	<input type="text" value="Currently, the roads do not support the traffic associated with the events at the Bicester Heritage site. With the increased traffic flow there would need to be vast improvements to the roads surrounding and the entrance to the site. It already impacts the houses surrounding the site, with several cars being parked in residential streets on event days. This site would not directly benefit local residents in any way but will impact them on a daily basis. An entrance on the North or East of the site would be a far less descriptive location."/>
