Comments	<input type="text" value="I object to the proposed development for the following reasons: 1. Traffic - Milton Road is already problematic in terms of people choosing to ignore the 30mph speed limit and this development will increase the traffic flow considerably 2. Noise - there is current evidence to suggest that residents of nearby Lucy Placket playing fields experience significant noise pollution when football matches are being played 3. Hours of operation - the use of the club house facilities will cause disturbance for residents living closest to the site 4. Lighting - I object to the site making provision, or future provision, for the installation and use of floodlights on the grounds of light pollution and potential impact on wildlife I.e. the large bat population known to be in the area close to the site"/>
