| Type | neighbour |
| Comments | <p>I have lived in West Adderbury for over 6 years now and take an active part in the community attending most if not all village events as well as being part of the morris dancing tradition in the village, I think that it is a terrible shame that we do not currently have large social/sports facilities to hold these kinds of events in. Most if not all other villages in the area have great facilities (King Sutton in particular) Having seen these plans i cannot understand why anyone would be against them, the new facility is a considerable way outside the existing village and any issues with the potential for traffic that this may cause i feel are unfounded, every year Ball Collgrave have an open day right next to the proposed site which attracts 100s of extra vehicles to/through the village and it does not cause any issue whatsoever. This project has already been voted on by the village twice and both times it has been supported by the village, so i hope that any negative comments on this planning application will not count against the will of the people of Adderbury. We sorely need these facilities in the village as the exisiting sports facilities at Lucy Placket are insufficient at best and it would be nice for the village to be able to use the new facilities to host the football team and hopefully other new sports teams that would then be able to form in the village once we have suitable facilities. For social events the Institute is great however it's capacity is very limiting and having a larger space for parties/other village social events would be amazing, for instance i was married in the village 3 years ago and if we would have had the new facility we would without a doubt had the reception there allowing us to have all the people that we wanted to attend without having to worry about numbers. In summary the village both need and want these new facilities so please please approve this application.</p> |
