Planning Milton Rd.. application no: 19/02796/F

I am writing to give this proposal my full support.
It is time our now growing village has facilities for new sports fields and a new community hall for everyone.

Existing meeting places are just not adequate for large groups and have no parking.
The current sports field floods regularly and stops any football being played.

This proposal is long overdue and after 2 polls in the village which fully supported this proposal it is only right and vital that this village should be given the facilities they deserve.
