Comments	<input type="text" value="I write in support of this application. The proposed development will meet a long standing need for a modern, purpose-built community centre and sports facility in this growing village. Existing provision in the form of the Lucy Plackett pavilion and playing field and, in particular for community use, the Institute, is inadequate. The new centre will provide for a much wider range of activities and users on what is the most suitable site in the village. The proposed access and parking arrangements appear to ensure minimum disruption to neighbouring properties and traffic flow. As in nearby villages such as Kings Sutton and Croughton, both facilities I personally use on a weekly basis, the new building should promote a greater sense of community, encouraging wider participation in sport and social activities."/>
