Comments	<input type="text" value="I am concerned that the on-site parking spaces seem overly limited. In the Design And Access Statement Rev B we are told that 141 parking spaces are to be provided. We are also told that the building has been designed so that it can be doubled in size. However fewer than 90 parking spaces are detailed on the plan. Even the 141 places seems to me to be far too few parking places for a successful community centre for this growing village, which leads me to expect that the neighbouring roads will expected to take the overflow. This should be seen as unacceptable."/>
