Comments	<input type="text" value="I fully support the application. Adderbury is in desperate need of new sports facilities and a purpose built community centre. The proposed development will allow for a huge range of different sporting activities and somewhere for village events to take place, which is both purpose-built and large enough to accommodate different audience sizes. Although Adderbury has a tennis and Squash club, there is only one football pitch on Lucy placket playing field which is prone to flooding and not large enough to accommodate more than one game at a time. The Village Hall is too small to hold more than 100 standing guests and the Lucy Plackett centre is only fit for demolition! There are over 40 clubs and societies in Adderbury and once the capital costs have been met, it will be self funding and also a valuable village asset which can generate income in the future. I am a member of Adderbury running club and a Morris dancer. We hope to use the hall for dance practice and the proposed running track for training (and maybe storage as well)."/>
