I am writing to support this planning application.

For many years the only sport area has been the Lucy Placket with a prefab building used for some village clubs and a very old dilapidated prefab building used for the football club as changing rooms

and club house. Access to the Lucy Placket is through Round Close Road which is a narrow village road with parking for a few houses on the road only. There is also limited parking on the Lucy Placket

The generous gift of land given to the village would enable for a suitable football pitch and other sport activities. The Lucy Placket is a flood plane and during winter quite often water logged or flooded after days of heavy rain.

Currently the village does not have an adequate community centre. There are various buildings currently used in the village but with limited parking outside the buildings, this causes increased traffic in the middle of the village plus parking problems. A purpose building could bring many benefits to the village, a modern building with good access and parking on site.

There were two Parish Polls taken which supported the Milton Road development
