Comments	<input type="text" value="Further to the comments raised on our response to the application on 3rd January 2020, we are very pleased to see many of our concerns regarding light pollution, drainage/run-off and stray balls have been addressed. Security of our site does give our business cause for concern, but we believe the reassurances we have received on the intention to keep the site secure is to be acceptable. We would like to see additional planting of evergreen shrubs/trees along the western boundary, such as Holly/Laurel, to provide additional density to the hedge line for security and light pollution. This is not indicated in the revised plans. We do however support the proposed development on the basis of the above."/>
