<b>Comments</b>	<p>I am pleased to support the revised application, which makes a number of constructive changes, and addresses the concerns of local residents. The planned facilities are configured to provide for the wellbeing and recreation of all age groups in the village of Adderbury. Current facilities are increasingly outmoded and inadequate, both in capacity and facility for a rapidly growing population, which of course includes a substantial number of children and young families. Strong support has been expressed by a substantial number of local Clubs, organisations and societies, who need a modern community building which will serve the village, with pitch and indoor facilities to match. I am not persuaded that the revised car parking arrangements will prove to be a threat to health or that concerns expressed about the planned versatility and suitability for young people are well founded or accurate. This is a much needed facility which will enhance the living, social and recreational environment for the entire community.</p>
