Comments	<p>I support this revised application as it makes a number of constructive changes, and addresses legitimate concerns of local residents. As I have said before, most of the objections in the "template" letters I have read on this site are objections for the sake of objection and I'm sure the planning department are well aware of this. It is ironic that the many copies of the template letters from Henge Close which are bombarding this planning website were written by people who objected for years to the building of Henge Close/Clockmakers Turn in the first place. So, the residents should take note that their presence was not welcomed by some of the authors of those letters, which have been written with a long standing grudge against the Parish Council and any development in the village. There is overwhelming support for this project by the "silent majority" in the village. The revised car parking arrangements will be no more of a threat to health than any other arrangement. The plan will provide recreational and community facilities for all age groups in the village. The project is supported by a substantial number of local Clubs, organisations and societies, who are fed up with outdated and in some cases, dilapidated buildings available in the village. The plan will provide a modern community building of which we can be proud and will provide enviable facilities for all. Rick Atkinson, former Parish and District Councillor. 27/3/20</p>
