PLANNING 19/02796/F

Here are my comment on the development:

I wish to support the revised application which makes a number of constructive changes. The planned facilities are configured to provide for the wellbeing and recreation of all age groups in the village of Adderbury.

The current facilities in the village are quite unsuitable now that the village has grown so much. The whole village has already supported this project when a referendum was held. Local organisations, clubs and societies have also given strong support.

I am not persuaded that the revised car parking arrangements will prove to be a threat to health or that concerns expressed about the planned versatility and suitability for young people are well founded or accurate.

This is a much needed facility for Adderbury and for the future of our residents especially our children
