<b>Comments</b>	<input type="text" value="The proposal doesn't seem to include the right measures taken to allow the residents living in the estate adequate access to and from the development. The proposal for a new shop would add congestion to an already busy turning that will frustrate many residents. There have been a number of recent close calls and incidents involving vehicles and people access the development and the rugby club that are not taken into account. I would suggest there is no data for these as this is being near misses are not recorded or reported. People in vehicle speed down the Oxford road in both directions preventing safe access to and from the development. I believe as a resident this will increase the chances of more incidents, near misses and close calls unless this is looked at more seriously. In my opinion there needs to be a 2 way speed camera and a mini round about to all people to access the site safely and reduce the risk of injury. Until this has been adequately addressed I will continue to object this proposal and I am sure many of the other residents will on similar grounds."/>
