<b>Comments</b>	<input type="text" value="Dear Sirs I write on behalf of the Deddington and District Sustainability Group. We are group formed some 6 months ago and now number approximately 100 members. Our objectives are to support and promote sustainability in the area. We very much support the extension to the Solar Park at Duns Tew. The transition towards sustainable energy is a critical part of the fight against climate change and we would be delighted to have such an important piece of infrastructure in the local area. Having attended a number of consultation meetings on the application it is clear that the details of the proposed scheme are very well thought through, have been thoroughly consulted and have earned the support of the the local population. Additionally, we believe that the potential partnership with the Low Carbon Hub materially adds to the attractiveness of the scheme. Your sincerely Nick Smith"/>
