Comments	<input type="text" value="When this present crisis is over the world will be different and we have no idea what the effects on global economies will be. One thing is already clear and that is the improvement in air quality - and resulting improvement in people's physical and mental wellbeing - as a result of fossil fuels not being burnt. Please take this opportunity to add to our stock of renewable energy for the sake of future generations. The developers have done a good job in consulting locally and they present a strong and sustainable case for the expansion of the Duns Tew Solar Park."/>
