For the attention of: Linda Griffiths

Dear Madam,

TRANSPORT AND WORKS ACT 1992: APPLICATION FOR THE PROPOSED NETWORK RAIL (EAST WEST RAIL BICESTER TO BEDFORD IMPROVEMENTS) ORDER

Flood Risk Assessment

Further to the Planning Direction received from the Department for Transport referenced TWA/18/APP/04, dated 4th February 2020. We write to discharge the following condition:

13. Flood Risk Assessment

The development is to be undertaken in accordance with the EWR2 Flood Risk Assessment July 2018 with further information as outlined in the EWR2 Flood Risk Assessment to be submitted and approved in writing by the relevant local planning authority in a phased manner to be first agreed by the relevant planning authority to inform each development stage.

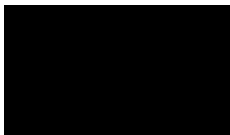

Reason: *To prevent the increased risk of flooding through an appropriate hierarchy of flood risk management*

We enclose the associated drawings that detail Flood Risk Assessment Phases in order to discharge the above condition and subsequently request your written approval by return of the enclosed on or before 28th April 2020 in accordance with Memorandum of Understanding version 2.1, reference 133735-EWR-LTR-DEL-000-001.

In areas where it has been identified that flood risk assessments / modelling, drainage strategies and / or flood / culvert models are required, the required information will be issued for each discreet location. The submission of flood modelling reports and models will be phased in accordance with the EWR2 Construction Programme. In areas where there is no requirement for flood modelling, works shall not be delayed by the need for other flood risk assessments / modelling, drainage strategies and / or flood / culvert model elsewhere within any construction stage.

We look forward to receipt of your response, in due course.

Yours sincerely

Laura Wilkinson
Senior Project Manager – Advanced Planning and Consents
EWR Alliance
