Subject: Application Np. 20/00737/F

Dear Mr Chadwick,

We have only just received notification by post of the above planning application.

We live in the property immediately opposite the proposed development - Chase House OX27 9BT. We had no issues with the previous application on this site which maintained the appearance of the courtyard (streetview) while providing new accommodation.

We object to the current proposal as it significantly changes the appearance and character of the existing buildings, currently stables and outbuildings.

A whole new 2 storey infill building is being added, joining the existing stables to an existing outbuilding which is also having its roofline raised.

It is also not clear how the residents of Plot 2 access their accommodation from the car parking at the rear.

Many thanks,

John and Jill Iball
