Comments	<input type="text" value="Dear Sir, I object as the size of the garage is exactly the same as the last application which was refused. And my objection remains on the same basis. I think that a garage of five vehicles and three parking bays is excessive for a single occupancy residential property. Why is a large agricultural vehicle needed in a residential property? As a result the proposed building increases significantly the residential footprint and is unnecessarily large and imposing in my view. Thank you Michael Weston"/>
