Comments	<input type="text" value="I am extremely concerned about this application for a recreational caravan site on the Milton Toad where I live, and am writing to register my objection. There are two campsites already in Adderbury which obviates the need for a third one. I'm very concerned also about the potential noise factor and disruption caused by the itinerant travellers who will be wandering around the adjacent housing developments. Since the two housing developments on the north and south sides of Milton Road have been built, plus the planned football ground and pavilion on the north of Milton Road, there is a huge increase in traffic (with no respect for speed limits). It has become very dangerous to try to walk across Berry Hill Road and Milton Road. It is only a matter of time when a tragedy will happen especially as there are so many young children who live in the vicinity and elderly people (like me). What also concerns the residents of West Adderbury is that if granted this will lead to further applications Being made for another housing development and eventually West Adderbury will be joined to Milton and then Bloxham. Please will you reject this application. Thank you."/>
