Type of Comment	Objection
Type	neighbour
Comments	We are writing to record our objection to the above proposal which we believe will have a detrimental effect on the surrounding environments of Adderbury and Milton. The whole nature of the area will be impacted together with the local services which are already under considerable pressure. Traffic which has significantly increased over the last five years with the expanding housing developments will be impacted together with local services which are already under pressure. In addition, the distinct possibility that these plans will be modified in time resulting in more permanent structures and year-round occupation is of major concern. These plans will not lead to an overall improvement of the area and we would ask the Planning Committe to take our objection into consideration when dealing with the application.
