Comments	<input type="text" value="There is nowhere in the plans that I can see for a chemical toilet waste disposal system which is a necessity at any caravan/motorhome site. The plans also say that all pitches will be fully serviced, i.e. with water and electricity. This requires a significant infrastructure to supply the power, water and drainage to 73 pitches. Normally only a small percentage of pitches are full serviced although most do have a electrical hook-up. I am not sure the planning has take all this into consideration."/>
