Comments	<input type="text" value="We live on the new development next to the field in question and feel that this development isn't in the spirit of the village by being placed so close to permanent residents. We moved to this area for a quiet place to raise our young family and did not expect a commercial site operating on our doorstep with all the noise and light pollution that would entail. It would involve frequent turnovers of guests and would probably attract crime to the area, which has already been targeted due to its semi rural location. I feel that this would be detrimental to our health and wellbeing and would be detrimental to the community atmosphere of the village due to the transient nature of the guests. A small holiday park would fit in well if it was positioned appropriately near the village, not in an adjacent field to new homes. In addition, we have already been disappointed by the planning permission given to the football pitch opposite which will bring in additional noise and light pollution. We feel that this area should have been developed in a more inclusive way, to promote sports and leisure facilities for all ages in the community. If this new development is given the go-ahead it would further damage the social fabric of the village as it creeps towards Milton. We are also concerned that all the activity will lead to people parking on Wallin. It is a private road due to the development being new which we pay maintenance for and this has been an issue in the past."/>
