<b>Comments</b>	<input type="text" value="I would object immediately that the property planned of two storeys is far too big and clearly out of keeping for the area. The number of car parking spaces indicates a rather large amount of traffic that would need to converge on Steeple Aston at 'rush hour'. The time when buses bring the children to school, not to mention the number of parents who bring their children in by car! One can clearly foresee an even greater problem occurring along Fire Lane than it is at present! Cars or buses already have to reverse and/or drive up the banks along Fire Lane and consequent traffic chaos on the junction of Paines Hill and North Side - this would certainly be exacerbated beyond endurance! Once can hardly imagine what chaos there would be firstly with building site lorries trying to access the site - great holdups and kerbside damage then general extra volume of employees and visitor cars. A traffic nightmare! To summarise the project is simply too big - please make it smaller."/>
