| Comments | <input type="text" value="My objection to this planning application is based solely on the issues of access and safety: There Is no main road access to the site of the proposed development and traffic, both construction and that generated by the completed site will have to approach via very narrow country roads. Both of the two possible routes pass through villages, in Steeple Aston all site traffic would pass a primary school, a pre-school and a children's play area. The approach via Middle Aston is on a narrow road with no footpath, parents walking children from Middle Aston to school in Steeple Aston do so by walking on the road. The possibility of accidents involving children are endless and obvious."/> |
