Comments	<p>I am very concerned about the amount and size of traffic that will use Paines Hill and go past the school. It is at present difficult to navigate Paines Hill at school times and many children walk with parents with buggies and they have to walk in the road as the pavements are too narrow for most buggies. As far as I can see it is an accident waiting to happen. Just because planning permission was granted all those years ago to put the poultry units there, does not make it right. It is an urbanisation of the area, a change of use would be much better and put houses on the site, (probably in your eyes urbanisation) then put in a footpath and give more parking space to the school which would be far more appropriate to the area. The contractors are very unlikely to walk/cycle to the area as suggested in the application and nor are most people who would work there as most of them would not be employed from the village. Even with less units and parking the area it is still not suitable, as there will always be deliveries and pickups and as the type of businesses are not known, that could be considerable.</p>
