Hi Jonathan,

It was nice to meet with you today.

Thanks for the feedback below on the Beech Tree, and of course, we are happy to agree to your description as per the below. I look forward to hearing from you also on the TPO progression route.

Kind Regards,

Amy

Hi Amy,

As per our discussion regards T2 Beech tree, can you reply with consent to the specific works amendment to the application for T2 only, T1 & T3 remain the same.

T2 Beech Tree – Crown lift to provide a ground clearance of approx. 3.5m over the garden, and up to 4.5m roadside, by removing/reducing low canopy branches whilst keep pruning wounds to a maximum of 75mm.

Thin the crown density by up to 15% to include reduce/removing small diameter branches fouling the overhead line running through the crown to the property.

Jenny will make the necessary amendments once we hear from you.

Kind Regards

Jonathan Emanuel
Arboricultural Officer (north)
Environmental Services
Cherwell District Council
