<b>Comments</b>	<input type="text" value="Thank you for consulting us on the above application, having now reviewed the planning app documentation contained on DEF/our website we have the following comments to make: As a permanent diversion of Sibford Ferris Public Footpath 347/10 is not required in relation to this planning application CDC PRoW offer no objections to the proposed development. Notwithstanding the above, we would, however, ask that due to the location of the Public Right of Way the applicant is reminded that during any development works if planning permission is subsequently granted that the public footpath must not be impacted on and will need to remain clear and accessible at all times. No temporary obstructions including any materials, plant, temporary structures or excavations of any kind should be deposited / undertaken on or adjacent to the Public Right of Way that may obstruct or dissuade the public from using the public right of way whilst the development takes place. Reason: To ensure the public right of way remains available and convenient for public use. Kind regards Judith Legal Services (PRoW) Ref: JH/013635"/>
